

FINAL EXAM:

Create a new Wordpress project that does the following:

1. Create a wordpress project using MAMP.
2. Open the testsite to verify it is loading with default settings.

3. Create a custom theme and activate it.

Theme Installed and ready for activation

4. Create 10 posts using Fakerpress.

The screenshot shows the WordPress Posts dashboard. The left sidebar includes links for Dashboard, Posts (which is selected), All Posts, Add New, Categories, Tags, Media, Pages, Comments, Elementor, Templates, Appearance, Plugins, Users, Tools, Settings, FakerPress, and Collapse menu. The main area displays a table titled "Posts" with columns for Title, Author, Categories, Tags, and Date. The table lists 10 items, all of which are scheduled for publication on November 13, 2021, at various times between 10:24 pm and 12:46 am.

5. Create three pages namely Home, About US and Contact US.

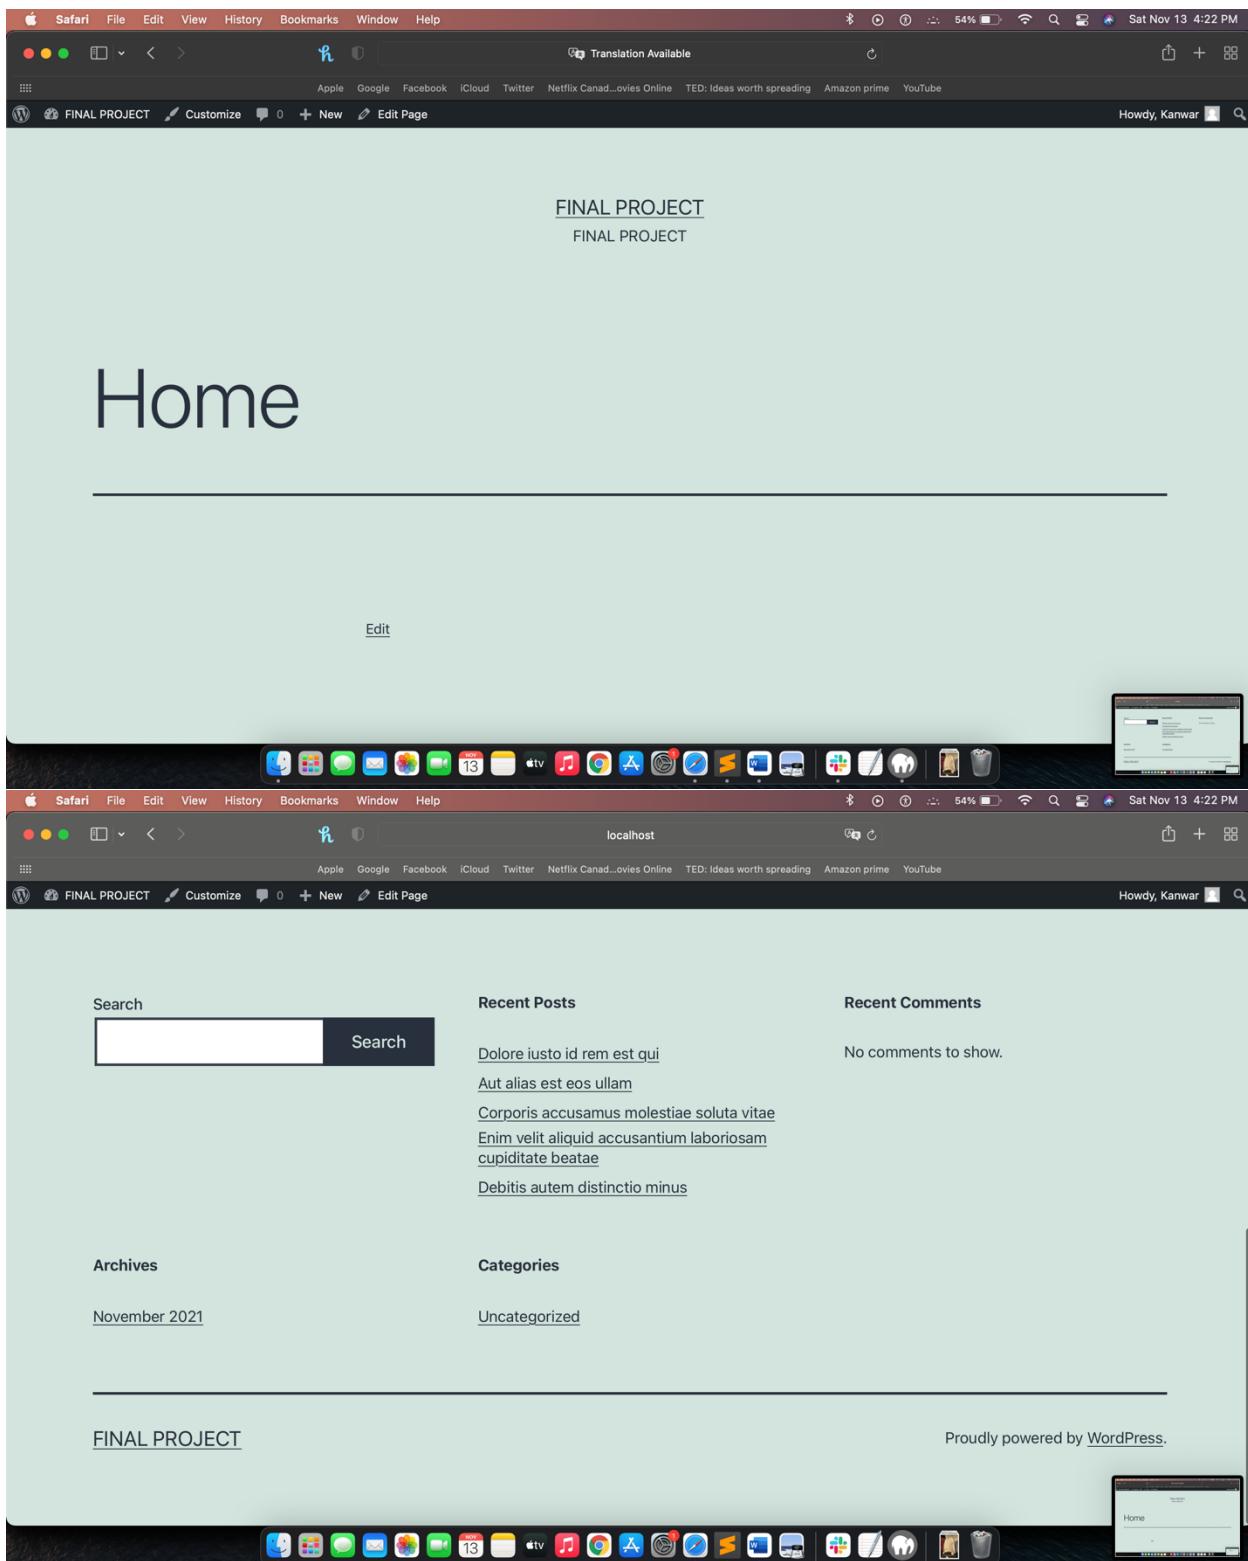

The screenshot shows the WordPress Pages dashboard. The left sidebar includes links for Dashboard, Posts, Media, Pages (which is selected), All Pages, Add New, Comments, Elementor, Templates, Appearance, Plugins, Users, Tools, Settings, FakerPress, and Collapse menu. The main area displays a table titled "Pages" with columns for Title, Author, and Date. The table lists 3 items, all of which are published on November 13, 2021, at various times between 9:16 pm and 9:17 pm.

Title	Author	Date
About Us	Kanwar	Published 2021/11/13 at 9:16 pm
Contact Us	Kanwar	Published 2021/11/13 at 9:17 pm
Home	Kanwar	Published 2021/11/13 at 9:16 pm

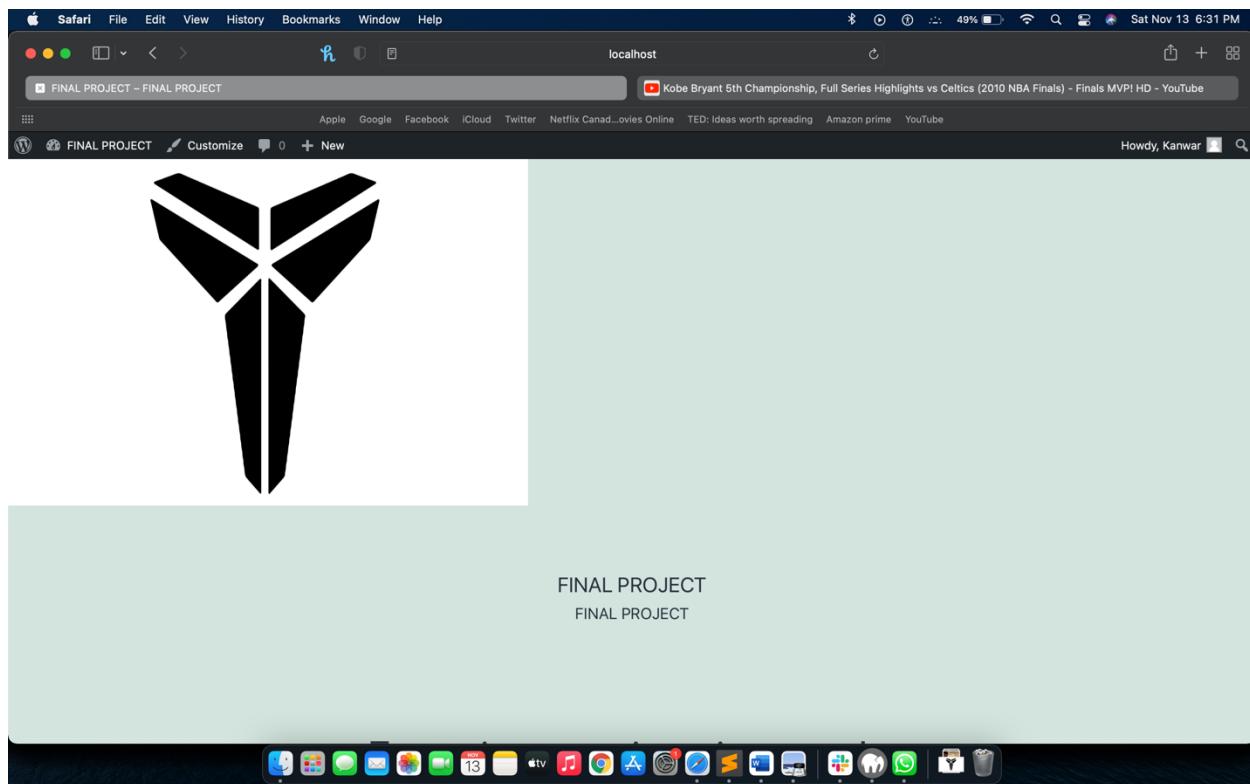

6. All the pages should have a header, footer respectively.

7. Give a logo to your page and integrate it.

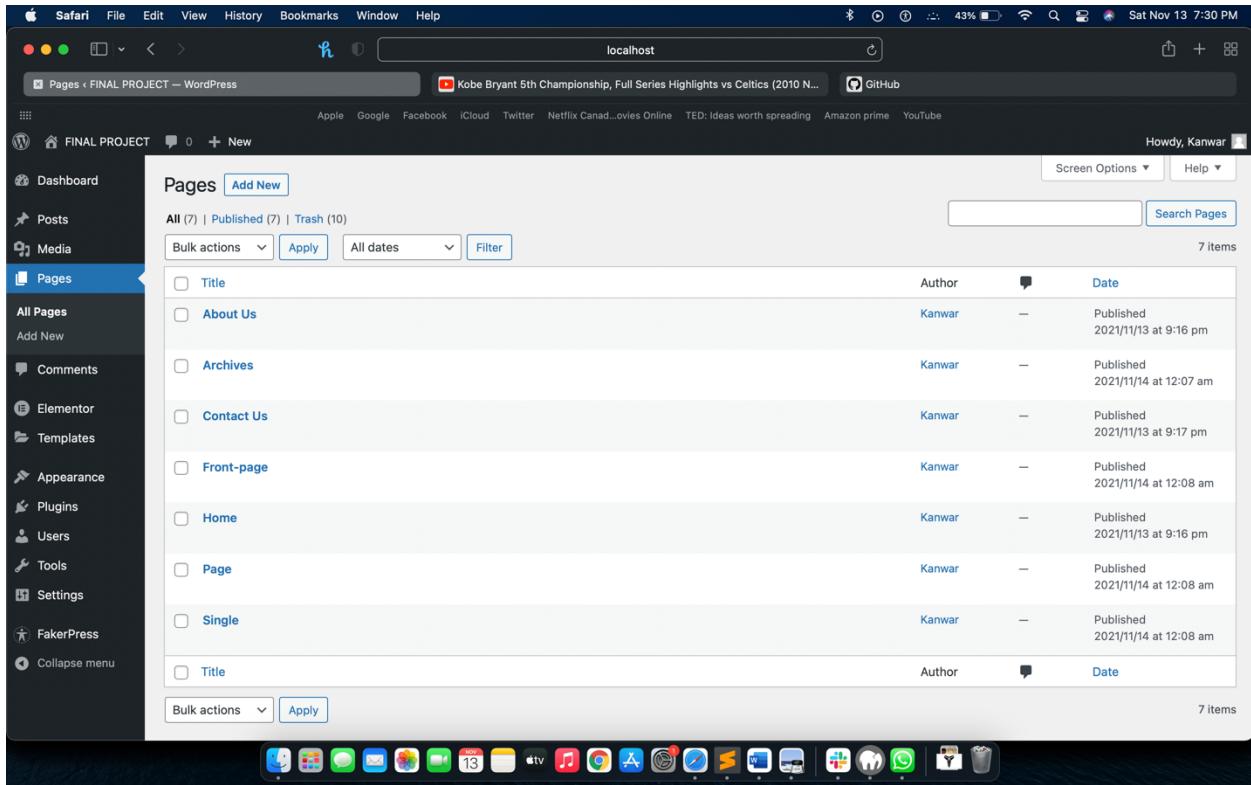

8. Create atleast two categories for your page's posts.

A screenshot of the WordPress dashboard under the "Categories" section. The left sidebar shows navigation links like Posts, Categories, and Tags. The main area displays a table of existing categories and a form for adding new ones. A note at the bottom explains that deleting a category won't delete its posts, but they'll be moved to the "Uncategorized" category if no other category is assigned.

Name	Description	Slug	Count
Category 3	final exam project	dynamic-webdesigns	0
category 2	FOR FINAL EXAM	exam	0
Category 1	—	final	0
Uncategorized	—	uncategorized	9

9. Have the 5 major template files integrated to your project.

The screenshot shows the WordPress admin interface in a Safari browser on a Mac. The left sidebar is dark-themed and includes links for Dashboard, Posts, Media, Pages (which is selected), All Pages, Comments, Elementor, Templates, Appearance, Plugins, Users, Tools, Settings, and FakerPress. The main content area is titled 'Pages' and shows a list of 7 published pages. The columns are 'Title', 'Author', and 'Date'. The pages listed are: About Us, Archives, Contact Us, Front-page, Home, Page, and Single. Each page was published by 'Kanwar' on different dates in November 2021. At the bottom of the list, there are 'Bulk actions' and 'Apply' buttons. The top of the screen shows the browser's address bar with 'localhost', the title 'FINAL PROJECT — WordPress', and a video thumbnail for 'Kobe Bryant 5th Championship, Full Series Highlights vs Celtics (2010 N...'. The top right corner shows the date 'Sat Nov 13 7:30 PM' and battery level '43%'. The Mac OS Dock is visible at the bottom with various application icons.

Page	Kanwar	Published 2021/11/14 at 12:08 am
Single	Kanwar	Published 2021/11/14 at 12:08 am

10. Change the homepage setting.

The image shows two screenshots of a Mac OS X desktop environment with a dark theme. Both screenshots feature a top menu bar with Apple, Safari, File, Edit, View, History, Bookmarks, Window, Help, and a battery indicator showing 44%.

Screenshot 1: Pages Section

- The title bar says "Pages < FINAL PROJECT — WordPress" and the address bar says "localhost".
- The sidebar on the left has a "Pages" section selected, showing "All Pages", "Add New", "Comments", "Elementor", "Templates", "Appearance", "Plugins", "Users", "Tools", "Settings", and "Collapse menu".
- The main content area shows a table titled "Pages" with 7 items. The columns are "Title", "Author", and "Date". The items listed are:

Title	Author	Date
About Us	Kanwar	Published 2021/11/13 at 9:16 pm
Archives	Kanwar	Published 2021/11/14 at 12:07 am
Contact Us	Kanwar	Published 2021/11/13 at 9:17 pm
Front-page	Kanwar	Published 2021/11/14 at 12:08 am
Home — Front Page	Kanwar	Published 2021/11/13 at 9:16 pm
Page	Kanwar	Published 2021/11/14 at 12:08 am
Single	Kanwar	Published 2021/11/14 at 12:08 am
Title	Kanwar	Published 2021/11/14 at 12:08 am
- At the bottom of the content area are "Bulk actions" and "Apply" buttons.

Screenshot 2: Reading Settings

- The title bar says "Reading Settings < FINAL PROJECT — WordPress" and the address bar says "localhost".
- The sidebar on the left has a "Settings" section selected, showing "General", "Writing", "Reading", "Discussion", "Media", "Permalinks", and "Privacy".
- The main content area is titled "Reading Settings". It includes settings for:
 - "Your homepage displays": A radio button for "A static page (select below)" is selected. Below it are dropdown menus for "Homepage" (set to "Home") and "Posts page" (set to "— Select —").
 - "Blog pages show at most": An input field set to "10" with a dropdown arrow.
 - "Syndication feeds show the most recent": An input field set to "10" with a dropdown arrow.
 - "For each post in a feed, include": Radio buttons for "Full text" (selected) and "Excerpt". Below this is a note: "Your theme determines how content is displayed in browsers. [Learn more about feeds](#)".
 - "Search engine visibility": A checkbox for "Discourage search engines from indexing this site" which is unchecked. Below this is the note: "It is up to search engines to honor this request."
- At the bottom is a "Save Changes" button.

11. Edit the theme file by adding a custom css. Change atleast three different css properties.
